

Publications: Gérard De Smaele has released “*A Five-String Banjo Sourcebook: A selected documentation,*” from L’Harmattan, a list of banjo material that De Smaele describes as “essential documentary sources...of the history and meaning of the five-string banjo,” and that is a companion to his 2015 “*Banjo Attitudes*” (a French publication). The sourcebook (which is in English) lists banjo-related monographs (or articles), banjo catalogs, music books and methods (by style), periodicals, banjo reference books, recordings and liner notes, films, players (by style), banjo builders, banjo academic centers, and websites. For sale from Elderly.
